WORK EXPERIENCE

Media Box Studios • Designer/Front-end Developer

September 2008 - Current

Primarily focused on designing and developing standards compliant websites. Expanded agency capability into social media, WordPress theme design & development, and refined agency web process. Performed integral role during redesign of agency's main site. Duties have included site architecture, wireframing, and (small) project management. Also produced videos, advertisements, flash animations, and interactive courseware.

Axiom Inc. • Web/Graphic Designer

July 2007 - July 2008

Sole graphic support for Axiom Inc., a small business working proposal efforts to a Large Systems Integrator. Performed all graphics related tasks including business graphic production, presentation asset and theme design, and illustration.

DEI Services Corp. • 3d/Graphic Designer

August 2006 - May 2007

Tasked with 3d and graphic asset creation as part of the Interactive Courseware team at a central Florida DOD contractor. Duties included 3d modeling and animation, compositing, and asset creation for use in courseware products supplied to the US Army, as well as the team's marketing material design.

FREELANCE

SpotCo • Web Developer

Worked with the Digital Art Director to chop PSDs and turn them into functioning webpages, usually over night or over the weekends. This large agency has a lot of overflow work and tight deadlines, which required quick and efficient development to put the web team on track to meet their deliverables.

FableEngine.com/Nerdnauts.com • Web Developer

Steve Celestin (Digital Art Director, BBDO) approached me with a design for his latest portfolio revision and a nerd culture blog (Nerdnauts) for original, longer-format content. A CMS was required for easy maintenance, so I worked with him to implement his designs as a custom WordPress theme in a very short timeframe.

EDUCATION

Full Sail University • Digital Media & Entertainment Business

Graduated 2006

Fast-paced, 24-hour environment studying subjects including graphic design, illustration, motion graphics, web design, management, business accounting, and copyright law.
